

INDEX TO VOLUME 53

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

- Abnormalities and Deformities:** See Hypertrophy; Monsters; and under names of diseases, organs and regions, as Brain, abnormalities; Face, abnormalities; etc.
- Abscess:** See under names of organs and regions, as Brain, abscess; etc.
- Accidents:** See Trauma
- Achondroplasia of Parrot and Marie and familial osteochondrodystrophy of Morquio;** demonstration of patients, 451
- Acid, Barbituric:** See under Barbituric and Barbituric Derivatives
- Activity, relation of area 13 on orbital surfaces of frontal lobes to hyperactivity and hyperphagia in monkeys,** 74
- Adipose Tissue:** See Lipoma
- Adler, A.:** Mental symptoms following head injury; statistical analysis of 200 cases, *34
- Adolescence, skull defect and herniation of cerebrum with absence of dura following head injury in,** *307
- Adrenalectomy:** See under Adrenals
- Adrenals, adrenal cortical function independent of direct nervous action; neurologic study of normal, denervated and transplanted adrenal glands of albino rats,** 442
- biochemical component of manic-depressive psychosis,** 156
- hemorrhage; fulminating meningococcal infection (Waterhouse-Friderichsen syndrome),** 321
- hemorrhage; Waterhouse-Friderichsen syndrome,** 387
- influence of gonads and adrenal glands on chemical composition of brain,** 248
- Adson, A. W.:** Lipoma of brain; report of cases, *299
- Aeronautics:** See Aviation and Aviators
- Age, electroencephalographic evaluation of primary behavior disorders in children; correlations with age, sex, family history and antecedent illness or injury,** *138
- Old:** See Old Age
- Ageusia:** See Taste
- Agnosia:** See Perception
- Air, Pressure:** See also Aviation and Aviators
- pressure; problems of fatigue as illustrated by experiences in decompression chamber,** 317
- Akinesia:** See Movements
- Ala Nasi:** See Nose
- Albumin:** See Cerebrospinal Fluid
- Alcohol, Addiction:** See Alcoholism
- Therapy:** See Angina Pectoris
- Alcoholism:** See also Delirium tremens
- chronic; conditioned aversion treatment; preliminary report,** 85
- delirium; electroencephalographic changes associated with acute alcoholic intoxication,** *44
- results of hospital treatment of,** 389
- Allergy:** See Anaphylaxis and Allergy
- Alopecia areata; anxiety; neurofibromatosis; auricular fibrillation,** 320
- Alpers, B. J.:** Histopathology of cerebral aneurysms, 249
- Altitude:** See Air, pressure
- Amaurosis:** See Blindness
- Amblyopia:** See Blindness
- Amentia:** See Feeble-mindedness; Insanity; Mental Diseases; etc.
- Amphetamine; effect of sodium amytal and amphetamine sulfate on mental set in schizophrenia,** *365
- Therapy:** See Dementia Precox; etc.
- Amputation, methods of initiating limb regeneration in adult Anura,** 315
- treatment of painful phantom limb by removal of postcentral cortex,** 390
- Analgesia:** See Anesthesia; Pain
- Anaphylaxis and Allergy, neurologic complications of serum and vaccine therapy,** 389
- Anastomosis:** See Nerves, facial
- Androgens, excessive, in female,** 159
- influence of gonads and adrenal glands on chemical composition of brain,** 248
- Anemia, Cerebral:** See Brain, blood supply
- Anesthesia, causalgia; preliminary report of 9 cases in which treatment with surgical and chemical interruption of sympathetic pathways was successful,** 448
- cranial nerve palsies with herpes following general anesthesia,** 389
- sodium amytal narcosis in treatment of operational fatigue in combat aircrews,** 239
- Anesthetics:** See Anesthesia
- Aneurysm, cerebral, histopathology of,** 249
- Angina Pectoris, radiographic control for paravertebral injection of alcohol in,** 77
- Angioma, atypical Lindau's disease, 155**
- hemangioblastoma of medulla (Lindau's disease),** 442
- Angrist, A.:** Subdural suppuration originating in purulent leptomeningitis, *144
- Anomalies:** See under names of organs and regions
- Anxiety:** See also Neuroses and Psychoneuroses
- anxiety; alopecia areata; neurofibromatosis; auricular fibrillation,** 320
- mental symptoms following head injury; statistical analysis of 200 cases,** *34
- Aorta, coarctation with spontaneous subarachnoid hemorrhage; report of case with recovery,** 391
- Aphasia; reeducation of aphasic patient,** 394
- Apoplexy:** See Brain, hemorrhage
- Appel, K. E.:** Present day trends in psychiatry, 160
- Arachnoid, inflammation; traumatic spinal arachnoiditis; report of 2 cases,** 157
- Arachnoiditis:** See Arachnoid, inflammation
- Argyll Robertson Pupils:** See under Pupils
- Arieff, A. J.:** Treatment of convulsive state at Illinois Security Hospital, 395
- Arieti, S.:** Primitive habits and perceptual alterations in terminal stage of schizophrenia, *378
- Armed Forces Personnel:** See Aviation and Aviators; Military Medicine; Naval Medicine; etc.
- Arms:** See also Extremities; etc.
- blood supply of nerves of upper limb in man, *91**
- pain referred to face, neck, upper extremity and chest due to lesions in ear,** 158
- Arrhythmia; anxiety; alopecia areata; neurofibromatosis; auricular fibrillation,** 320
- Arteries:** See also Aneurysm; Aorta; Blood; Embolism; Periarthritis; Thrombosis; Vasomotor System; etc.
- Cerebral:** See Brain, blood supply
- costoclavicular compression of subclavian artery and vein; relation to scalenus anticus syndrome,** 239
- experimental studies on headache; transient thickening of walls of cranial arteries in relation to certain phenomena of migraine headache and action of ergotamine tartrate on thickened vessels,** *329
- inflammation; temporal arteritis; local manifestation of systemic disease,** 440
- Retinal:** See Retina, blood supply
- Arteritis:** See Arteries, inflammation; Periarthritis
- Artificial Fever Therapy:** See Dementia Paralytica
- Ashby, M. C.:** Electroencephalographic evaluation of primary behavior disorders in children; correlations with age, sex, family history and antecedent illness or injury, *138
- Asphyxia, alterations in brain structure after asphyxiation at birth; experimental study in guinea pig,** 154
- Asthma, neurocirculatory; cardiac neurosis as manifestation of hypoglycemia,** 320
- Atopy:** See Anaphylaxis and Allergy
- Atrophy:** See under names of organs and regions, as Brain, atrophy; Face; etc.
- Attention, effects of sodium amytal and amphetamine sulfate on mental set in schizophrenia,** *365
- Auricular Fibrillation:** See Arrhythmia

Diseases: See also Encephalitis; Insanity; Men-
tal Diseases; etc.

diseases; cerebral malaria; electroencephalographic
study, 84

diseases; denial of blindness by patients with
cerebral disease, *407

diseases; encephalopathy, nephrosis and renal
granuloma following sulfonamide therapy, 441

diseases; fatal case of cerebral malaria, 387

diseases; lesions in brain associated with malaria;
pathologic study on man and on experimental
animals, *191

diseases; unusual case of cerebral malaria, 388

disturbances in sleep mechanism; clinicopathologic
study; lesions at cortical level, 79, *399

edema and trophic disturbances of lower extrem-
ities complicating prefrontal lobotomy, *262

effects of implantation of methylcholanthrene in
brain of dog, 395

effects of lesions of periaqueductal gray matter
in cats and monkeys, 325

electroencephalography; delirium; electroencephal-
ographic changes associated with acute alcoholic
intoxication, *44

electroencephalography; electroencephalogram in
late post-traumatic cases, 387

electroencephalography; electroencephalogram in
post-traumatic epilepsy, 386, 440

electroencephalography; electroencephalogram of
decorticate monkeys, 74

electroencephalography; electroencephalographic
and pneumoencephalographic studies of multiple
sclerosis, 246

electroencephalography; electroencephalographic
changes in case of subarachnoid hemorrhage,
*232

electroencephalography; electroencephalographic
evaluation of primary behavior disorders in
children; correlations with age, sex, family his-
tory and antecedent illness or injury, *138

electroencephalography; electroencephalographic
findings in cases of bromide intoxication, *431

Brain—Continued

- electroencephalography; electroencephalographic study of prefrontal lobotomy; study of focal brain injury, *283
- electroencephalography in chronic post-traumatic syndromes, 237
- electroencephalography; origin of spike and wave pattern of petit mal epilepsy; electroencephalographic study, *274
- electroencephalography; vasopressor and carotid sinus syncope; clinical, electroencephalographic and electrocardiographic observations, 385
- hemorrhage; transtentorial herniation of brain stem; characteristic clinicopathologic syndrome; pathogenesis of hemorrhages in brain stem, *289
- hernia; skull defect and herniation of cerebrum with absence of dura following head injury in adolescence, *307
- hindbrain and early development of behavior in frogs, 385
- hyperthermia following injury of preoptic region; report of case, *150
- Inflammation: See Encephalitis
- influence of gonads and adrenal glands on chemical composition of, 248
- Injuries: See also Cranium, injuries; Head, injuries
- injuries; cerebral injury by blunt mechanical trauma; reference to effects of repeated impacts of minimal intensity; observations on experimental animals, *333
- injuries; electroencephalographic study of prefrontal lobotomy; study of focal brain injury, *283
- injuries; electroencephalography in chronic post-traumatic syndromes, 237
- injuries of vertex of skull with reference to paracentral lobules of brain, 89
- injuries; phenomenon of visual extinction in homonymous fields and psychologic principles involved, *29
- injuries; physiologic basis of concussion, 317
- intelligence following prefrontal lobotomy in obsessive tension states, 244
- Localization of Function: See also Brain, diseases; Brain, pathology; Brain, tumors
- localization of function; afferent areas in cerebellum connected with limbs, 386
- localization of function; functional organization of medial aspect of primate cortex, 235
- localization of function; physiologic neuroanatomy of some corticocortical connections in chimpanzee, 386
- localization of function; relation of area 13 on orbital surfaces of frontal lobes to hyperactivity and hyperphagia in monkeys, 74
- mode of representation of movements in motor cortex, with reference to "convulsions beginning unilaterally," 235
- organization of tactile sensory area of cerebral cortex of chimpanzee, 74
- pathology; periarthritis nodosa with decerebrate rigidity and extensive encephalomalacia in 5 year old child, 251
- physiologic interpretation of convulsant action of metrazol, 318
- Physiology: See also Brain, electroencephalography; Brain, localization of function
- physiology; study of gnosis, praxis and language following section of corpus callosum and anterior commissure, 317
- Sclerosis: See Sclerosis
- Softening: See Brain, pathology
- studies of sensation of vibration; evidence for cortical areas in inhibition and mediation of tickle, *355
- surgery; complication of prefrontal lobotomy, 395
- surgery; electroencephalographic study of prefrontal lobotomy; study of focal brain injury, *283
- surgery; frontal lobotomy, 324
- surgery; prefrontal lobotomy in treatment of chronic psychoses with reference to section of orbital areas only, *125
- surgery; psychoneurologic problems related to surgical transection of prefrontal association areas in man, 155
- surgery; return of virility after prefrontal leukotomy, with enlargement of gonads, 442
- surgery; treatment of painful phantom limb by removal of postcentral cortex, 390
- surgery; use of products prepared from human fibrinogen and human thrombin in neurosurgery, 77

Brain—Continued

- tonic and clonic responses of cerebral cortex following hyperventilation, 317
- tumors; erotomania (nymphomania) as expression of cortical epileptiform discharge, *226
- tumors; giant cells in neuroectodermal tumors of brain, 250
- tumors; lipoma; report of cases, *299
- tumors; meningioma of lateral ventricle; report of case, 161
- tumors; multiple meningioma and meningiomas associated with other brain tumors, 387
- utilization of oxygen by brain in traumatic shock, 153
- ventricular changes after closed head injury, 444
- visual disturbances produced by bilateral lesions of occipital lobes with central scotomas, *165
- Brazier, M. A. B.: Action of barbiturates on cerebral cortex; electroencephalographic studies, *51
- Brenner, C.: Paralysis of nerve induced by direct pressure and by tourniquet, 88
- Bromide and Bromine; electroencephalographic findings in cases of bromide intoxication, *431
- in Blood: See under Blood
- Buchanan, D.: Toxoplasma encephalomyelitis; clinical, pathologic and experimental study, 447
- Bucy, P. C.: Herniation of cervical intervertebral disks, 87
- Bullet Wounds: See under Head
- Burns, utilization of oxygen by brain in traumatic shock, 153
- Busch, A. K.: Prefrontal lobotomy in treatment of chronic psychoses with reference to section of orbital areas only, *125
- Cacogeusia: See under Taste
- Calvarium: See Cranium
- Cancer: See under names of organs and regions, as Brain; Lungs; Uterus; etc.
- Carbon Disulfide, degeneration of basal ganglia due to chronic carbon disulfide poisoning in monkeys, 446
- Cardiazol: See Metrazol
- Cardiovascular System: See Arteries; Heart; Vasomotor System; etc.
- Carotid Sinus; vasopressor and carotid sinus syncope; clinical, electroencephalographic and electrocardiographic observations, 385
- Casamajor, L.: Phlebothrombosis and phlebostasis of brain in newborn and in early childhood, 240
- Castration, types of female castration reaction, 237
- Catatonia: See Dementia Precox
- Cauda Equina: See Spinal Cord
- Causalgia: See Neuralgia
- Cells: See also Neurons; Tissue; etc.
- giant, in neuroectodermal tumors of brain, 250
- Cephalalgia: See Headache
- Cephalocele: See Brain, hernia
- Cerebellum, afferent areas in cerebellum connected with limbs, 386
- chronic chloroform poisoning; clinical and pathologic report of case, *68
- Localization of Function: See Brain, localization of function
- neurogenic polycythemia; report of case, 251
- Cerebrospinal Fever: See Meningitis
- Cerebrospinal Fluid, biologic false positive spinal fluid Wassermann reactions associated with meningitis, 440
- cerebrospinal rhinorrhea; surgical repair, 77
- head injuries involving air sinuses (with cerebrospinal rhinorrhea), 388
- interpretation of findings in; dementia paralytica formula and necessity of its quantitative differentiation, *116
- nonprotein nitrogen and protein concentrations of serum and spinal fluid in shock, 153
- polyradiculoneuritis with albuminocytologic dissociation; pathoanatomic report of 3 cases, *185
- surgical management of compound depressed fracture of frontal sinus, cerebrospinal rhinorrhea and pneumocephalus, 443
- Cerebrum: See Brain
- Cervix: See Uterus
- Chemotherapy: See Meningitis
- Chenault, H.: Herniation of cervical intervertebral disks, 87
- Chest: See Thorax
- Children: See also Infants
- electroencephalographic evaluation of primary behavior disorders in children; correlations with age, sex, family history and antecedent illness or injury, *138

- Children—Continued
 psychomotility in behavior disorders as seen in handwriting of children, 439
 Chloroform, chronic poisoning; clinical and pathologic report of case, *68
 Choanae: See Nose
 Choline and Choline Derivatives: See Cholinesterase
 Cholinesterase, distribution in bovine retina, 74
